Cliquer sur « Se fier »

Connexion WIFI – Android

IMPORTANT : Votre mot de passe doit avoir été personnalisé

The screenshot shows the configuration screen for an eduroam Wi-Fi network on an Android device. The settings are as follows:

- eduroam** (Network name)
- EAP method**: PEAP (indicated by red arrow 1)
- Phase 2 authentication**: MSCHAPV2 (indicated by red arrow 2)
- CA certificate**: Do not validate (indicated by red arrow 3)
- Identity**: DA@cegeplimoilou.ca (indicated by red arrow 4)
- Password**: (indicated by red arrow 5)

Additional text on the screen includes: "No certificate specified. Your connection will not be private." and "Anonymous identity".

Annotations in white boxes:

- 3 - Certificat CA : Choisir ne pas valider
- 4 - Numéro demande d'admission (DA)
